

# SUN2FOLD

**PRO**

## Technical data

Sun2Fold offers an ideal solution for flexible and self-sufficient power generation based on green energy sources. After an easy installation, the system can be used almost anywhere. Perfect for temporary use in previously unutilized areas, Sun2Fold enables a sustainable energy supply exactly where the energy is needed.

### Technical data Sun2Fold PRO

Quantity of modules	200
Module output	670 W per module (bifacial)
Total output	134 kWp
Weight	approx. 14 tons
Size (unfolded)	130 m, 6.1 m, 2.9 m (LxWxH)
Operating temperature	-30 °C to +60 °C (-86°F to +140 F°)
Retraction and extension time	27 minutes
Terrain	adjustment Slopes of up to +/- 3%
Certification	TÜV Süd-tested, CE-certified
Connection options	on-grid and off-grid

In addition, Sun2Fold is available as Sun2Fold COMPACT (110m long, 112.56 kWp with 168 modules) and Sun2Fold SMART (90m long, 91.12 kWp with 136 modules). We also offer individual TAILOR MADE solutions that deliver customized energy systems with individual sizes and specific performance data.
